

Africa Political & Economic Strategic Center (AFRIPOL) is foremost a public policy center whose fundamental objective is to broaden the parameters of public policy debates in Africa. To advocate, promote and encourage free enterprise, democracy, sustainable green environment, human rights, conflict resolutions, transparency and probity in Africa.

The founder and principal policy strategist is *Mr. Emeka Chiakwelu*.

With the dawn of 21st century Africa cannot afford to wallow in underdevelopment in the century of innovations and great possibilities. Strategies must be formulated to lurch Africa into political and economic freedom and this is our vital goal.

A new chapter must be open in Africa, a chapter of maturity and self sufficiency. A new dawn in Africa where human rights and respect of individual inalienable right reign.

AFRIPOL promotes individual liberty, limited governments, free markets and peace in Africa.

Our mission is to encourage Africa in this endeavor.
